JUNIOR CHAMBER OF COMMERCE

WASHINGTON, D. C.

OFFICE OF THE PRESIDENT

July 10, 1953

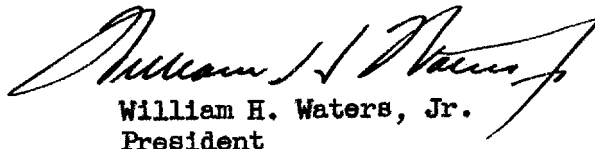

Dear Mr. Dulles:

There is enclosed herewith announcements and regulations for the Arthur S. Flemming Awards which are to be presented to the outstanding young men in the Federal Government for 1953 by the Junior Chamber of Commerce. This will be the sixth annual presentation of these awards.

The Junior Chamber of Commerce is acutely conscious of the misunderstanding that a number of people in this country have regarding the capabilities of the Federal Service employees. We also recognize the fact that if the outstanding accomplishments of young men in the Federal Service were brought to the attention of all peoples, that much of this misunderstanding would abate. It is with the two-fold thought in mind, therefore, that of recognizing outstanding ability and publicizing the same, that we have conducted the Arthur S. Flemming Awards Program.

In the past the support we have received from the departments and agencies of the Federal Government has been most gratifying. We wish this to continue and therefore solicit your personal and official support in promoting this program throughout all levels of your organization.

Sincerely yours,

  
William H. Waters, Jr.  
President

The Honorable Allen Dulles, Director  
The Central Intelligence Agency  
Washington 25, D. C.
